

Strategic Plan Goal Subcommittees

IT Strategic Plan Committee

Overview

For the next three to five years, the State will concentrate its resources to achieve six major statewide goals in support of the mission stated above. As individual goals are accomplished, other goals may be added to the list, and the list may be modified as appropriate in response to changing environmental conditions, priorities and resources. The six statewide goals follow:

Goal 1 Subcommittee

1. **Lower the cost and improve the reliability of State IT Infrastructure.** The State will consolidate the management of common information technology and communications infrastructures serving the Executive Branch to improve operations at reduced cost, using the private sector as a model and benchmark for organization and competitiveness.
